Laying a Strong Foundation Through Pre Schools in Chennai, Bangalore and Hyderabad by [Rajnish Mehan](#)

Article published on February 29th 2012 | [Education](#)

The problem of millions of parents with small kids in the age group of 1 to 4 years is solved by the presence of pre schools in many parts of the country. They are constantly worried about how their kids will behave when among people or other kids of their age. They are apprehensive about the expressive nature of their kids and the manner in which they would accept the studies when they go to the schools. Whether they would be able to learn in schools or not is another major concern of the parents.

Adjusting to an external environment apart from home is something that is a necessity in every one's lives. When the kids go to the schools for the first time, there is every probability that they will be disturbed. These are issues which have forced many parents to go for the pre schools in the cities of their residence. The ethos that is practised in the pre schools in Chennai has proved to the nervous parents that they can now stop worrying about their children.

In these pre schools in Chennai, the kids are treated with utmost care, while imparting them knowledge on a variety of aspects. These practices in the schools are helpful in paving a path for the kids to learn many things and prepare them for the school life ahead. It is here that the kids are encouraged to read and write and interact with other people. Since this is the place where they are exposed to external environment out of the comfort of their homes and company of their parents, it is important that the pre schools be equipped to handle the tender minds and body.

Parents in the city of Bangalore are mostly working and they want their kids to be properly attended to. Due to the busy schedules and stressful nature of their work, it is not always possible to give sufficient time for the development of the kids. Pre schools in Bangalore realise this fact and endeavour to instil the sense of learning and knowing many things.

Through interactive class and playful environment, the children are taught rhymes, alphabets, poems, games, etc so that they learn the basics quickly. When these things are taught to the kids, they are able to grasp them in a very short time, which wouldn't have been possible in the homes by the parents.

The games that are played in the pre schools in Bangalore are designed in an interactive manner, so that the children have an interest for reading books and learning things in their school days. Costume shows, fancy dresses, audio and visual media and group activities help the children to acquire a quick process of learning. To teach animals and birds, the children are taken to zoos and shown videos and pictures of animals. They are shown different objects to identify the shapes.

Properly done, the pre schools in Hyderabad can be great centres of basic education, which is the aim of parents to send their small children to these pre schools. The curriculum in the pre schools in Hyderabad is designed in a manner where the kids can have a wholesome development. Encouraged by such trends, more and more parents are shedding their doubts and sending the kids to the pre schools in the cities in which they are living. Even the interest is being seen in the children so that they go to these schools with smiles on their faces.
