Article published on May 23rd 2012 | Education

Business Objects is a suite of business intelligence tools which does include Crystal Reports. As you probably learned from your investigation, Business Objects bought Crystal Enterprise and SAP bought Business Objects.

The SAP Business Objects portfolio offers a broad portfolio of tools and applications designed to help you optimize business performance by connecting people, information, and businesses across business networks.

In order to ensure you get the maximum value from your SAP Business Objects offering investments, SAP Business objects training provides a complete set of training offerings. You can take advantage of courses, products, and services designed to help you maximize your software investment.

SAP BO Online Training courses are specific to SAP Business Objects and offer a comprehensive curriculum for technical and business users. In addition, and most courses are offered through multiple delivery methods including traditional live classrooms, virtual live classrooms, eLearnings, as well as blended solutions ensuring your workforce gets the training they need in the most convenient and cost effective format.

In addition, they offer several distributed learning products for end user training and adoption including SAP Knowledge Acceleration. Built for SAP Business Objects offerings, SAP Knowledge Acceleration software is a customizable, Web-based learning tool that delivers out-of-the-box training, as well as ongoing knowledge support, for SAP solutions.

Take advantage of courses in several curriculum paths that cover specific SAP Business Objects portfolio components and functionality, including business intelligence (BI) solutions, informationmanagement(IM)solutions, enterpriseperformancemanagement(EPM)solutions,and governance,risk and compliance (GRC) solutions.

They are constantly reviewing their training programmes to ensure that they are able to offer the most efficient and valuable learning options to their customers and partners. They are pleased to announce that the way in which they offer SAP Business Objects training is changing.

SAP Business Objects scheduled training is now delivered exclusively via several sap bo online training institutes. These institutes have been carefully selected by the people who want to join and have gone through rigorous quality checks to earn the status of Authorized Education trainers. Their selected staff have years of Business Objects implementation experience, are certified as Value Added Resellers, and have a proven track record of high quality course delivery.
