Writing autobiography books by Paul Smith

Article published on March 29th 2012 | Education

Autobiography books make an interesting reading for others since they tell the real experiences of the writerâ€™s life. If you have lived a life that is well-lived or have lived a life full of hardships and struggles, you have some interesting tales to share with others. Unless you are famous, it is your autobiography that can preserve your life experiences and tales. And for those famous ones, their autobiographies can present their side of story and an excellent way to defend those unauthorized biographies about them. If you want toi write an autobiography about your life, it is important that you take some time to plan the event.

Reason to Write Autobiography Books

If your basic motive is to share your life experiences with others, your book will turn out to be the best autobiography. Other reasons can be giving your family a gift, an effort to understand your life, to preserve your legacy and just to try writing. On the other hand, if earning money is your motive behind writing your autobiography, you will find it hard to sell your book unless you are a famous person. Getting a book price in India that can earn you a good profit is not possible for you if you are not a good writer.

Research

Before you start writing a book, conduct some research. Read some autobiographies written by some famous or some not so famous people. For recommendations, you can ask your family, friend or local bookseller or you can search online also. There are a few good online books store in India where you can visit right from the comfort of your home or office and conduct your research. Reading as many books as you can will help you explore your writing skills in a better way.

Finding a theme and weaving a tale

After all, an autobiography is also a book that should have something interesting to tell for the readers to read. Think about the driving force in your life. You may choose the central theme of your story as love between spouses or father-son, father-daughter and more. It may be a rags-to-riches story or something else. Another important thing is that you weave your story around that central theme and remove other unimportant details. In addition, organize your story in a chronological order as it is very important for an autobiography. Once you have completed writing the book, make sure to proofread it twice or thrice to weed out unnecessary detailing and other errors.

Visiting online books stores in India will help you immensely at every stage of writing and marketing your book.
