Angry Birds for iPhone by Dhody David

Article published on January 5th 2012 | Entertainment

The Angry birds is indeed one of the most demanding games of iPhone. This game grabbed the attention and interest of many users in a very short time. After checking the rising demand of this game, its developer Rovio Mobile Ltd. launched two more editions of it. Therefore, today you are able to play three different versions of this fascinating game.

Letâ€™s start with the first edition of this game which is named Angry Birds. The nice game-play of this version got the attention of gamers. This game is suitable for both pro and beginner players. The charm of first version remained intact even after the launch of next two editions Many of you feel great sympathy for the birds that fight and make destruction so that they can survive. Their survival is on stake just because of pigs who stole their eggs. You hate these pigs after hearing the complete story in the beginning. The graphics and themes of each level of game look very eye-catching on the iPhoneâ€™s display. The touch screen of this game lets you to make the destructions through birds quite comfortably.

Second edition is Angry Birds Seasons which lets you to enjoy the game in a variety of seasons such as Halloween, Christmas, Valentineâ€™s Day and many more. The story of this edition does not differ from the original one. You have to take revenge from the pigs who stole the eggs of birds. Make as much destructions as you can with the mean of special abilities of wingless birds.

Third Edition called Angry Birds Rio and this edition is more entertaining and challenging than Seasons. This edition is inspired from the animated film Rio so it would be better to watch the movie first and then to play the game. Its story is somewhat different from the original angry birds. In this game, original birds of game are kidnapped and taken to Rio de Janeiro. It is a place where they have to escape their captors and also to save two stars named as Blu and Jewel. There are a number of hidden fruits in the game and you will get the points for finding them.

You are free to play any edition from trio. If you didnâ€™t play this game before then I suggest you to take a start from the first edition and then to move ahead. You can buy any edition of it from App Store. Although the price of each is only $0.99 but the joy that you obtain through this game would be priceless.
