Harvest moon back to nature takes you in real world by [Harvest1](#)

Article published on March 21st 2012 | [Entertainment](#)

Harvest moon back to nature is one of the most popular games throughout the world. It has all the material which is enough to mesmerize millions of people. All the characters, in the game, symbolize the common man, so we feel more attached with the characters. We find that we are just not playing a game but we are living the life. This is admirably combination of role playing and simulation.

You play the role of hero when you start playing game. Although you are bound by certain pre conditions but you are able to take your own decisions to fulfill those conditions. You face many ups and downs during the game. Your one wrong decision sometime becomes fatal for your whole game play.

Harvest moon back to nature is a game of young boy. You have to play the role of this young boy. You visit to your grandfather's village where you meet a girl. After some time the grandfather pass away leaving behind devastated farm. Now the villagers keep a condition before you that if you want to live in this village then you have to settle the farm again. You have to start with just 500 dollars which you have to spend very carefully.

Then you do everything in routine way as other villagers do in harvest moon back to nature. You have to sleep in time and wake up with the sun. When you live that routine you start enjoying the game. As you do farming you realize that how difficult it is. You have to manage everything in just \$500 which you need to spend meticulously. It all depends upon your mind and swiftness whether you able to do farm or not.

The harvest moon back to nature seems to be slow at first but as you start taking difficult decision the game opens the door of excitements very fast. You don't find time of relaxing. The background music of harvest moon back to nature is very smooth. It changes with the season. The sound keeps you energetic throughout the game; you don't feel tired for the moment.

This game is really admirable for being unique. It keeps you away from the hue and cry of city life. Truly this game takes you back to nature.
