Article published on August 14th 2012 | [Entertainment](#)

Nowadays video games are integrated with state of art graphics and amazing special sound effects. Recent survey shows that video console is the fastest growing consumer electronics and nearly 60 million video consoles were sold in the year 2007. This video game is still increasing its popularity not only among the children but adults as well.

Know about the types of video consoles:

- Nintendo Wii is designed to share pleasure among the family members including the older generations. It can be easily accessible, very intuitive, and the handling of this video game can be mastered very simply in short time by anyone. It gives a real experience to the players. However it has many features, the main cons is, it does not have high resolution capability.
- Sony play station 3 is designed with PS3 lies in Blu-ray compatible DVD and with high definition imaging. Sony offers real life like graphics and stunning fast responses on time. PS3 is not just for playing games, it also allows you to surf on internet and you can enjoy by viewing your photos, mp3, and movies. It also offers you a service like downloading games and movies as well as you can play online with players all over the world.
- Microsoft Xbox 360 is designed with a complete multimedia platform. It offers a high definition imaging and multitude of action games like role playing, racing, shooting etc. Microsoft Xbox has the motion sensing kinect which enables the player to control and interact with Xbox360 without the game controller. It supports Bluetooth services as well as WIFI connections.

Facts to consider- Sell games online:

- The sale of newer game will offer high profit for you. Remember that you need to sell games online during the time it's popular. Because if your game becomes old, it will lose its value.
- Once you decided to sell your game, search the web site which is genuine, and safe to use. In the web site, you can quote a price for your game.
- Before selling the game just know about the pricing of your product. To sell your games as soon as possible stick to comparable charges.
- You should also include the shipping charges. For video games, the standard shipping cost may vary from \$2 to \$5. If you find hard to sell the game, you can offer free shipping.

Note that it's time to have fun with some video consoles. Now these consoles have variety of sport games, adventures games, war games, fighting games, and shooting games. These are full of fun, enjoyment, and safe choice to spend our free time.
