Popularity of games in android market by Jane Cyrus

Article published on March 20th 2012 | Entertainment

Android is one such Operating system which has captured the market at a very fast pace. Many people are switching to this platform due to the variety of applications it provides. Most of the application can be downloaded free of cost and for game lovers itâ€™s like cherry on the cake.

With its increasing popularity the number of free apps is also increasing. Though you may find most of them a waste but then you will also find some quality games and other apps. One can find Best Android games without spending a penny. All you need is to login to the android market and start searching according you requirements. Androidâ€™s application pool is enormous. Youâ€™ll find every ki of application here. Searching an application is also simple and easy, depending upon your need you can choose from various categories. Whether we talk about health and fitness, entertainment and communication or finance, you will find different applications for these categories.

There are games that are available in 3d format and of high definition quality. Itâ€™s a real fun to play such games. The best part about Android market is its extremely large game pool. One can find any type of game here be it football, cricket, cards, puzzles or any other category. In fact one will find different versions of these games. Before downloading any game you can check its reviews and detailed description. It also gives you the option of choosing amongst other alternatives for the game that you want to download.

Angry Birds is one such game which is most popular amongst kids. The way this game is represented shows the creativity of the person who has launched it. In this game there are few birds which are used to target on pigs that are caged and you have to make sure that all pigs are destroyed. Lots of versions have come for the same and the one which will be released soon is â€œAngry Birds Spaceâ€•.

Other such games that are gaining popularity are:

Wings of fury:

This is an action game in which you are supposed to blow up Islands of your enemies using a fighter plane. Once you start playing this game youâ€™ll find it more interesting and addictive.

Whereâ€™s my water:

This game will be liked by those who have interest in solving puzzles. This game is created by Disney and is one of the â€œbest android gamesâ€• in the market. The game includes more than 200 puzzles. There are two alligators a good and a bad one. And the concept is to stop the bad alligator from restricting the water supply for the good one.

Another game which is going to be launched soon is â€œIce age villageâ€•. The game is based on the popular movie â€œIce ageâ€•.

I have given a brief description about some of the games that are popular these days. There are numerous other game that will be loved by game lovers.
