The loans seekers can borrow an amount of £100 to the least. He can borrow up to £1,200. Finance providers will, of course, decide how much the borrower will be paid. Actually, the amount to be paid is fixed on the basis of the monthly earning of the finance seekers. Debit card payday loans are associated with higher rates of interest. This is the practice in the finance market for short term finance programs, because the cash is advanced in absence of collateral and its repayment period is short. The borrowers are to repay the outstanding within 14 to 31 days. Finance of this kind is offered in unsecured form. The finance agencies keep an eye on the loan seekers' paycheck of the next month when they grant the amount.

The finance providers are interested to get the loan application for debit card payday loans through online procedure. This procedure is favorable for the loan seekers, because their privacy is not hampered, and at the same time, processing for loan payment becomes speedier. The finance providers take care in using their time. They take measures to send the loan amount to the bank address of the finance seekers within the next banking day, and sometimes much before, once they finish reviewing the loan application.

The British citizens, who are over 18 years of age and who have been working in any registered office or factory for the last six month, can apply for debit card payday loans.
