Article published on June 1st 2012 | Finance

The world is advancing. These advances are leading to very high expenses. People are always running behind one another to meet up all the expenses. All financial institutions are available to provide all necessary aid for the people. In this unexpected world, nobody is aware of what happens next. Some unexpected needs arise all of a sudden. It may not be possible for all the people to roll up cash immediately to meet the expenses. Inorder to get the amount for settling the needs, people often approach various financial bodies. There are various options provided to them. A new system has been launched inorder to get fast cash at the same time during which loan is applied.

This system is called " Car Title Loans" also referred as the "title loan". While applying for the secured loans , always collateral is submitted inorder to approve the loan. In this case, cars are considerd as the collateral. The financial body will check the wholesale value of the car. The loan amount released on this basis will be approximately equal to 50% of the car value or more. This loan should be taken only under emergency conditions. This is a short term loan and the interest rate for this kind of loans are high. Since it is short term based, the applicant should be able to repay the laon amount along with the complete interest rate within one month. Only under certain situation , the time period is increased slightly. If the repayment is not made within the specified time frame, then the car will be taken by the financial body.

Along with the condition of the car, the financial body will check whether any other existing loans are present on the car or not. If so they wont accepted that particular car as collateral. No credit check is performed on the applicants bank account. As a result this can be decribed as no credit check loan facility. The applicant must be 18 years or above and should hold an active bank account. They should also submit the residential proof, income proof etc for the loan. This loan should be chosen only under emergency conditions after checking with the terms and conditions with the financial body.

The article discuss on car title loan and also advice on choosing this option only under an urgent situation. As the loan facility is basically titled as short term based loan.
