Article published on February 7th 2012 | Finance

An enhanced annuity is for those who have some or other health issues and those health problems are going to affect the life. Annuity is such a pension set up that is meant to work for an extended period. The longer one live, the extra money insurance company has to pay to the annuitant. That's the reason why the organisation want to pay more to those who have poor life expectancy.

In case, one has high blood pressure or high cholesterol, he might be eligible for Enhanced Annuities, no matter how, weird or funny, it may sound, yet it is a truth that smoking more cigarettes, little more alcohol or anything else can get one qualified for fifteen to twenty percent increase in the retirement pension.

The problem is most of the individual are not even aware that they are eligible for enhanced annuity. A recent study informs us that more than 50% of the individuals who invest in the annuity pension plan do not know that they also eligible for enhanced annuities. It is because there are as many as five thousand medical conditions that qualify in single or in pair for investment in enhanced annuity.

In case, one want to avail these high paying Annuity Rates, the only factor to do is to complete a medical questionnaire with the annuity broker and it'll further be submitted to the enhanced annuities supplier. It is only after his approval that one got permission to invest in high paying annuity.

Annuity is famous for providing the best option for the retirement as far as the financial security is concerned. It is probably the best pension plan in the market. It is only through annuity that your money go into the safe hands and with a promise to pay you back regularly in the near future.

As far as the best annuity is concerned, there is a lot to choose from. Financial market offers many types of annuities, which includes fixed annuity, deferred annuity, enhanced annuity, joint annuity and many more. Each type includes a specific characteristic which further benefit the annuitant according to the need of the time.

In case, one is near retirement and is a pension saver, one has to think carefully about the allowance option. There is always a risk of losing the savings if not invested in a safe plan properly. Therefore, it is indispensable to think about investing in a proper plan.
