Article published on November 29th 2011 | Fitness

It is a great pleasure of rewarding if you have a pet in your house. They are the important part of your family. Once you own it, You should take the necessary steps to remain your pet fit , happy and healthy for a long time. The care should be taken for safety your dearest dog or cat to keep your pet safe from various infections. Pet owners are anxious about health their darling pup. Hopefully there are lots of flea control medicine available in the market which takes care of your pet for you. The most recommended vaccine to prevent your pet from infection is Advantage.

The pets infected by fleas and other parasites must be treated in earlier stage. Once it spread across the body, it cause other disease and the condition becomes horrible, irritating and dangerous for you also. Advantage is a comprehensive one stop solution for not only fleas but other parasites such as ticks, their eggs and larvae as well.

Your pet must be vaccinated properly in order to prevent infection causing from virus in the air, dust and other infection. Advantage is the prescribed medicine for controlling various infection caused by virus. The most beneficial advantage of using an Advantage is it continues to work even your dog gets wet. It is easy to apply and safe medication which started affecting in less than 12 hours. Once Advantage are applied on the skin the poisonous chemical present in the medicine kills all the fleas on the skin. Treatment of the Advantage should lasts for about 30 days.

It is 5 star reviews medicine, favourite among all pet owners. Donâ€™t forget to apply even a single day if your pet is suffering from severe infections. Imidacloprid is the most active ingredient present in the flea control medicine, Advantage. It directly takes actions on the nervous system of the flea. It does not allow to regulate the growth of insects. While applying the medicine on the body surface of your pet make sure that entire content of the tube should be used in once. It is advisable to apply it on the small targeted area of the skin.

There are some safety precautions you have to take while using Advantage as a flea control medicine. Use an Advantage only under doctors prescription as they prescribe the exact quantity depends on the weight of your per. Must read the label and follow the instruction before applying the medicine on the pets skin. Place empty container in dustbin only after wrapping it around. Keep it out of reach of your children to avoid adverse reaction. Always remember to check expiry date before using it.
