Article published on January 11th 2012 | Fitness

Hip Replacement Surgery in India at low cost and high quality is now within reach. India offers outstanding medical care at approximately 10 to 30 percent of the cost of US-based health care. India is home to a number of dedicated, highly skilled health professionals. The physicians, surgeons and paramedical staff are well qualified and considered among the best in the world. It would be difficult to discover any other medical system this cost-effective elsewhere in the world. In addition, to hip replacement in India, the patients can enjoy the scenic beauty and exotic landscapes, of one of the most culturally rich, beautiful and dynamic countries in the world.

Hip replacement is a surgical procedure in which the hip joint is replaced by a prosthetic implant. Hip replacement is most commonly recommended if you have severe osteoarthritis, but itâ€™s sometimes used for inflammatory conditions such asrheumatoid arthritis or ankylosing spondylitis or if you have problems with hip development during childhood. Hip surgery may also be needed for hip fractures, including those resulting from osteoporosis. The major benefits of Hip replacement surgery are;

* freedom from pain

* improved mobility

* improved quality of life

Your doctor will give you a list of doâ€™s and donâ€™ts after your Hip replacement surgery that will help with healing and in preventing complications, such as dislocation.

Hereâ€™s what you can do:

* Donâ€™t bend from the waist

* Donâ€™t sit with crossed legs

* Donâ€™t turn your legs so your feet turn in or out

* Use a pillow for support between your legs at night as directed by your surgeon

Hip Replacement Surgery in India has enabled thousands of people worldwide to live fuller and more active lives. Over the past half - century Hip Replacement Surgery in India has been very successful. Indian health system is a unique combination of international quality medical treatment and effective cost savings and this feature is especially attracting foreign patients who are uninsured or who have gotten tired of the long wait for an appointment medical doctor in his hometown.
