Article published on December 15th 2011 | Fitness

Advair Diskus is a combination of fluticasone propionate and salmeterol. It is widely used for asthma patients aged 4 years and older. Some serious allergic reaction can also occur like rash, hives, swelling of the face, mouth and tongue. You will be provided with an inhaled, short-acting bronchodilator. Always use this device in a horizontal position level. It is very important to rinse your mouth with fresh water after using this medicine because thrush in the mouth and throat can easily occur. If you are having breathing problem after inhaling your medicine, immediately call your doctor. Most of the people are not aware of the fact that Advair Diskus can easily increase the chances of getting pneumonia.

Contact your doctor immediately, if you notice any of the symptoms like sputum production or change in mucus colour, inconstant fever, increased cough and breathing problem. Its generic name is Fluticasone/Salmeterol. One should not stop taking Advair Diskus unless told by the doctor as it may have some serious side effects. One should be very careful in taking this medicine. One should take Advair Diskus each day on the same time and in the same manner.

Advair Diskus is very effective in relaxing the muscles around the airways in the lungs. It is very important to follow the instructions told by the doctor on how to inhale properly to ensure its effectiveness. Contact your doctor immediately, if your inhaler fails to provide relieve in your breathing problem. One may have to face some serious side effects like - dizziness; headache; muscular tissue pain; nausea; sleepiness; throat irritation; and kidney failure. Advair Diskus also has some serious side effects on heart and nervous system. Increase in the blood vessels, irregular heart beat; tremor and nervous breakdown are the main symptoms of its side effects.

Overdose of Advair Diskus may also reduce the functionality of adrenal which can further leads to loss of energy in the body. Tell your pharmacist, if you have any conditions such as if you are pregnant or planning to become pregnant, taking any prescription or non-prescription medication or dietary supplements. Its powder comes with an extra information sheet called a Medication Guide. One should read it carefully for its proper use. One should strictly follow the schedule told by his doctor to take Advair Diskus. Always put this medicine in a dry place and beyond the reach of childrenâ€™s reach and sight. Always check the expiry date of Advair Diskus before buying.
