A comprehensive Restaurant POS, Restaurant Management Solution â€“ Rely POS by Jeff Kolar

Article published on March 3rd 2012 | Food

Rely POS is a comprehensive Restaurant Point of Sale, Restaurant Management, and Marketing Solution that is fast, reliable, easy to use, and most of all, affordable. Our online technology allows us to offer restaurant owners who use our online restaurant point of sale system instant access from anywhere, lifetime upgrades and instant backup for the life of the account. Use Relyâ€™s online restaurant POS on our high speed touchscreen, your PC, laptop, or iPad. Because Rely POS is online, you can manage your restaurant from any where.

Relyâ€™s online restaurant POS is so powerful, you can create and print guest checks, manage your employees, and send emails to all of your customers, all from one account. Just like many other popular web sites, simply sign up, create an account and begin. Relyâ€™s online restaurant POS will assist you in setting up your menu, your customer database, and your company structure. Itâ€™s that easy.

Relyâ€™s online restaurant POS is so powerful; it is a Restaurant Point of Sale system, credit card interface, Restaurant Management software and Marketing system.

Set up is easy. With Relyâ€™s online restaurant Point of Sale you can set up and manage your restaurant's menu; manage your employees, and customers from any where. All you need is internet access. We have created a system to help you set up your menu accurately and efficiently. You simply choose your restaurant style and answer some simple questions and Rely Point of Sale will automatically setup your menu. Then customize the names and prices to your restaurant's menu and you are ready to go in minutes.

Relyâ€™s online restaurant POS is a subscription based, software as a service provider. By maximizing the power of the World Wide Web, we are able to make Relyâ€™s online restaurant POS your all in one Restaurant Point of Sale Restaurant Management and Marketing solution. Only the internet can make all of this possible, and you can manage your restaurant from any where you have internet access. Never before have restaurant owners been able to have this flexibility.

There are many advantages to our model. The first and primary advantage is cost savings; Relyâ€™s online restaurant POS will save you thousands in up front set-up costs. With Relyâ€™s online restaurant Point of Salethere are no expensive network installation charges. The internet is the network.

There are also long term cost savings. Relyâ€™s online restaurant Point of Sale automatically updates your Point of Sale system with new editions as they are introduced. You never have to pay for expensive licensing fees or costly maintenance and technical service. Our engineers will do all of that for you from our offices.

If you decide to use our high speed touch screen, your unit will arrive with the necessary software installed, simply plug in the unit, turn it on and connect to the internet. Relyâ€™s online restaurant POS provides technical service twenty four hours a day, seven days a week.

Relyâ€™s online restaurant POS works for all types of restaurants including Sit Down, Counter Service, Fast Food QSR and Delivery. Rely POS is perfect for American, Bar and Grill, Pizza, Italian, Japanese, Chines as well as Bakery, Coffee, Diners and Ice Cream parlors. When you set up Relyâ€™s online restaurant POS for the first time just choose the type of restaurant that best suits you.
