Thailand Shrimp is a type of marine prawns that is widely used as delicious food item. It's commonly available in indo-west-pacific, Africa, Arabian Peninsula some part of Japan and Northern Australia. Sea food is considered as a very healthy food for human being mainly because sea food contains low cholesterol levels, rare minerals and vitamins. It provides required vitamins and energy. It's very useful in the growth of brain without adding extra fat to the body.

If you are a seafood lover then you should checkout restaurants and small food outlets which provide quality sea food like prawn, frozen fish, tiger shrimps, Thailand shrimps and many more. You may find a bulk of quality aqua food only in south Asian countries like China, India, Indonesia, and Thailand and also in South America and North America Earlier it was really difficult to get any of this types of seafood apart from the above countries

However the time has changed and technology has grown and made it simple. Now days these foods are available almost everywhere Like in restaurants or hotels. The Frozen seafood items taste like the fresh one when they are prepared. You will not even realize that you are eating frozen one unless you are informed about it. Tiger shrimps are largely exported by south East Asia to other parts of the world. Tiger shrimps are known for its taste. If you are a frequent visitor of restaurant and food outlets where you enjoy the mouth watering cuisines of seafood then you must try black tiger shrimps which are delicious with the typical Thai ingredients. There are many varieties in black tiger shrimps

Below given is the list of black tiger shrimps available in the market

H.L black tiger shrimp, HOSO black tiger shrimps, and HLSO Black Tiger Shrimps

Thailand shrimps are largely exported to countries like U.K. and Canada where the demand for this food is high. There are many feeding forms for shrimps in and out of Thailand

In any international hotel Thailand shrimps and black tiger shrimp are a must in their seafood menu. Thai cousin is best known for the spicy food and seafood. Usually the food in Thailand is made from natural herbs spice and chilies. Thai seafood is one of the most delicious sea foods in the world with the right mixture of ingredients and lots of fish and Prawns. Thailand sea food is very famous for its shrimps like saltwater shrimp, White shrimp and black tiger shrimp. Lots of species and flavors are used in the preparation of this shrimp and none seafood menu is considered as complete without black tiger shrimp and Thailand shrimps dishes.

Shrimps and other sea foods are considered as healthiest item in the food menu not just because of its taste, but because it is the natural resource for some very rare and vital vitamins like Cod liver oil which is given for every new born babies. People who have fish regularly never get any issues related to fat or cholesterol.
