When itâ€™s time to buy gifts for our loved ones, we are often in a fix. For one, if weâ€™re gifting a gentleman, itâ€™s difficult to find a suitable gift â€“ the kind heâ€™ll appreciate, use, and be proud of. Sec itâ€™s even more difficult to find the time to go shopping and gift hunting for the right things. There are a million things to do on occasions, and you just canâ€™t find the time to go gift hunting! That is where online gift shops can be a great deal of help. If youâ€™re looking for the perfect gentlemanâ€™s gift, and t person in context is a smoker; you can simply choose to buy him Xikar lighters or cigar cutters and make a great smoking set!

Xikar Cigar Cutters People who smoke cigars have a certain class to their smoking. This is why it is important to use the right smoking accessories with cigars. Xikar lighters for example, use a jet flame that doesnâ€™t leave any residual smells of fuel to spoil the taste of your smoke. Similarly, the fine blade of Xikar cutters will ensure that even a 58 ring gauge cigar is cut perfectly symmetrically, maintaining the smooth air flow, and allowing the smoke to travel along the tobacco without any air mixing in. These are factors that are rarely known to people who do not smoke cigars.

Here are a few tips about smoking cigars with class â€“

â€¢ Cigars have a perfect level of humidity, and hence need to be kept in special cases called humidifiers. These have humidity regulators which maintain a perfect taste to your cigar.

â€¢ A normal cigarette lighter can light a cigar, but there is a slight smell of the fuel when you light the smoke. This taste remains within the cigar as you smoke it, spoiling the blend.

â€¢ Cigar lighters are usually jet flame, but some have soft flame. However, the jet flame varieties are more preferred by connoisseurs. Xikar lighters are among the most popular.

â€¢ Xikar cutters ensure the perfect symmetrical cut. This ensures that the smoke travels smoothly. An uneven cut allows the air to infiltrate into the smoke, compromising the taste.

Xikar, as a company manufacturing cigar lighters and accessories, is relatively new in the market. Just a decade and half old, but the company already has promising loyalty from smokers across the world. Each of their products is of premium quality, and their designs are simply marvelous.
