Article published on January 18th 2012 | Gardening

Gone are the days when children used to share their parents bedroom and the concept of childrenâ€™s room decor was not in vogue. With the prosperity of the society, lives of kids have become better and their living environment is now more comfortable. Now, there are a myriad of products available in the market keeping childrenâ€™s taste and comfort in mind. There are many products which can be bought for your kidâ€™s room like wall stickers, wall decals, childrenâ€™s linen and kidâ€™s furniture.

The most important part of any room is its furniture and children spend one third of their time on bed as we do. So selecting a bed for kids is significant. A proper bed is necessary for them when they are growing up, as their spinal columns will grow too and they should have proper bedding so that it grows normally. A wide variety of kids furniture is easily available in furniture shops which when matched properly will make a sweet and warm paradise for your kids. A bed with a wooden fence and a chest to keep toys is said to be suitable for kids and are available in many different materials. The chest in a bed serves as a good storage and can be stuffed with blankets, clothes, shoes or newspapers.

When it comes to decoration of childrenâ€™s room, nothing could match the utility of wall decals. It allows a creative expression as they are available in huge assortment of sizes and styles. You can choose from Disney, super heroes, Star Wars or any other category which is your kidâ€™s favourite. Customised wall decals are in fashion and you can surprise your child by his own image on the roomâ€™s wall which will be a special memento for him. Repositionable and movable wall stickers can be rotated seasonally as per choice without damaging the walls of the room. Giving removable wall decals is a great way of decorating kidâ€™s room and can be given a chance because of their durability and flexibility.

If your girl or boy is one of those kids who loves to have their own play tents, then teepees are a must buy for you. Playhouses are available in very funny, cool and unique designs which give your kid a little more place of his own to play at. Mesh windows, roofs and doors are some of the many features of these great toys. Most of the tents provide enough space for more than one person to play and enjoy which doubles the fun.

Follow these creative ideas and make your kidâ€™s room a cosy place where they would love to rest and play.
