Article published on June 20th 2012 | Gardening

Commercial landscaping is very important for a wide variety of different businesses. Ensuring that the external grounds of your business look attractive, smart and presentable at all times will help to portray your company in more positive light, make your workplace look attractive and make it a more enjoyable place to come for staff and visitors.

As well as external commercial landscaping, interior commercial landscaping services are also sought after and this tends to be for large buildings such as offices, business parks, schools and shopping centres that have indoor as well as outdoor landscaping requirements. Commercial landscaping companies will work for a wide range of clients such as major PLCâ€™s, shopping centres, flats and apartments blocks, business and retail parks, office blocks, communal gardens, other commercial properties and also provide landscaping Sussex services to private homes.

By employing a commercial landscaping company you can ensure that your grounds look pristine at all times of the year. Commercial landscaping companies and companies who offer landscaping Sussex services will be able to undertake a wide range of landscaping tasks.

These will include mowing, hedge cutting, strimming, leaf clearing, tree felling, weed control, planting, pond maintenance and hard commercial landscaping such as laying and maintaining patios, decking, walls and tarmacking.

As well as all aspects of external commercial landscaping, commercial landscaping companies will be able to handle all interior landscaping. This will involve looking after all internal planters and as well as planning new internal green areas if required. Some commercial landscaping companies will offer short term rental of pots, plants and trees for events like conferences, weddings and exhibitions.

Commercial landscaping and landscaping Sussex companies will know the best types of plants for both your indoor and outdoor environment and will select plants that will thrive in these particular settings. If you want to change your home garden then a landscaping Sussex company will be able to provide advice, ideas and designs to help make the most of the space you have so your garden becomes like another room of your house.
