Acer Aspire Quality Batteries used in laptops PCs by John Smith

Article published on April 6th 2012 | Hardware

From their products Acer Aspire laptops which are helpful for both the home user that has space constraints and the business user who requests mobility. Laptops have many features and functions than desktops in now days.

There are four most important series of laptops and a variety of accessories in the collection. Laptop series Acer Aspire and the Acer TravelMate Tabletseries have been designed for professional and business users. The tablet laptop in particular captivates a lot of people with its attractive skin texture.

There is one more Acer laptop series that is a result of collaborative efforts among Acer and the Formula 1 Racing Team Ferrari. The product is famous Acer Ferrari 4000 laptop and contains sophisticated technology with having integrated Bluetooth and AMD Turion 64 processors.

The AMD PowerNow technology and a 15.4 inches widescreen display are the quality features of the 3000 series. While its 3100 series has wireless options and Bluetooth in addition to the most recent optical drives. The 3610 series is prominent for it's very dense and but portable size, but it also comes with a widescreen.

Acer Aspire series has a lot of singular models that will useful to both the home user and small business user. These Acer laptops have been adjudged to among the most excellent around and have garnered a number of awards from the computer media. The 5600 series contains an Intel Core Duo processing and for those interested in specification details, the display screen goes from 14.1 inches to 15.4 inches widescreen.

For persons who want a long battery life and high speed, the 5000 series they should go for. The next series is the Acer Aspire 5600 using Acer Aspire 5600 battery and it has 1 gigabyte of memory and 64 bit technology. A unique 17 inch screen and lots of multimedia applications is what made different to 7100 series from other series, although the Acer aspire 9300 series using Acer aspire 9300 battery come with an Intel Centurion double mobile technology and TV tuner option.

The final series in the range is the 9800 series and this has an extra-large 20 inch widescreen display and an integrated video camera. Each and every one of the Acer laptops that plunge into the Aspire series is particularly designed to provide different applications and price range.

Also with sales of computers, the organization also manufactures a range of accessories for the Acer laptops. Along with the accessories are laptop batteries, mice, carry cases, keyboards, global positioning systems, and audio players.
