Article published on December 28th 2011 | Hardware

Cheap tablet PCs are also known as mobile computers. They are smaller than a laptop or a notebook but bigger than an average mobile phone and Personal Digital Assistant (PDA). Tablet PCs are nothing but small version of a personal computer with flat touch screen. They have an option to use or not to use a keyboard and a mouse. Touch screen helps users to input data quickly by using a stylus (electronic pen) or fingers.

Using a touch screen devices is the latest trend of todayâ€™s world. Cheap Tablet PCs the device which improves oneâ€™s status symbol among the others. They are commonly known as business peoples. Tablet PCs is a combination of touch screen mobile phones and a personal computer. Unlike laptops and notebooks; Tablet PCs have a very powerful and faster operation system which helps to save a hell lot of time of an individual.

With the increase in the use of the cheap tablet PCs , it is slowly helping us to get rid of our paper wastage issue. This is because; tablet PCs are forcing the newspaper industry to produce less number of newspaper and uploading the daily news on the internet. People have also started making use of them in some of the schools and university. With a large storage facility students can store each and everything and can go through it any time they want. They do not have to carry extra luggage to school for example note books as everything is available on the internet.

Because of the popularity of cheap tablet PCs , a battle has been stated between the manufacturers to provide the best tab ever. Manufactures are coming up with different versions of these tablet PCs with touch screen platform and can be used on all the operating systems like, windows XP, windows 7, Linux and apple Mac. Some tablets also have screen size from 20 to 22 inch with video outputs, Bluetooth and duel core processors. Some are also coming up with retina display. Retina display will give users clear picture that cannot be seen in any other visualize devices such as LED or plasma televisions.
