Clip in extensions â€“ Easy Procedure to get long hairs by Jane Cyrus

Article published on April 18th 2012 | Health

Extensions are the best way to give heavy and thick look to your hairs and it is now easily available everywhere in almost all the specialist hair extension stores and outlets. An accurate amount of hairs are required to clip in your hairs because if it will be too heavy in weight then it can leave a negative effect. For an instance we can say that the extensions of 8â€™â€™ piece should not exceed the weight of 60 g. These extensions cannot be returned as once you will open it as it can get damaged due to some hygienic reason. Before opening the packet you must check the color of the hairs first and must check that you have brought the same color and shade that your hairs have. To make your hairs more realistic try to purchase the extensions of same color and texture so that it will easily get mix up with your hairs. There are various types of clip in extensions available in market of different brands and this cause price variance so you can easily compare the cost and quality of the hairs.

These extensions are used on the temporary basis, and donâ€™t provide permanent solution. Also human hairs are available all everywhere all around the world whether it is Asia, Europe of India. Mostly the Remy hair texture is available in the market. On the other hand, One of the best human hair extension id European hair, it is popular because of its texture, light weight, high protein content and the strength which give hair longevity. European hairs are comparatively expensive than the Yaki hair, another type of hair extension available in market.

Extensions are made from different texture and type, one of the popular type of these extensions are the synthetic hairs. Usually synthetic hairs are available in different colors i.e. pink, blue, green, and are mainly used to give funky and stylish look to the hairs. The material used to make the synthetic hair extensions is polyster, modacrylic, nylon and kankalon. This texture can easily be applies on the normal hairs and doesnâ€™t require any styling after washing.

The points to keep in mind before using hair extensions:

- Condition of your hairs must be good.

- Extensions are not set well in the dry hairs so before using these extensions check the quality of your hairs then spend your time and money on extensions.
