Don't be left in the dark when it comes to DNA TESTING by [Oliver Samuels](#)

Article published on July 20th 2012 | [Health](#)

DNA testing is not a new concept but it has become very popular in the 21st Century because of all the new types of tests that are available. DNA testing has risen to new heights with so many ways to get the answers that you are seeking. It is no longer just about the common paternity testing but more about changing lives. People are now taking DNA tests to determine family relationships. We also offer immigration DNA testing that will satisfy any government agency. When you want a company that is efficient and proficient you don't have to look very far because there is a Paternity Lab Center in your area. We are the company that can help you achieve your results in a fast and professional way. Pick up the phone and call Paternity Lab Center today at (800) 416-7407 or you can complete the online form (Paternity Lab Center) for a free consultation on DNA testing in your area.

We are prepared to answer any questions that you may have about DNA testing. We will walk you through the process of giving samples, receiving test results and our policy and procedures on confidentiality. Every specimen gets tested twice and we can turn most tests around within 3-5 days including paternity testing. We test each specimen twice to maintain our 99.99% accuracy rate and to make sure that you get the right results. We are also AABB accredited and we also offer a mobile testing lab if you cannot make it to our local lab. Our goal is to make this process as easy as possible for you and everyone that is involved. No matter what city you live in there is a lab near you. We are the ones to turn to in your time of need.

There are so many different ways that you can give a DNA sample. Bodily fluids are the most common, however you can get samples from a cigarette butt, a hair follicle or even from an item that has been stained with your DNA or someone else's. We are now offering infidelity DNA testing in the unlikely event that you think your spouse may be cheating. So all you have to do is bring in a soiled item and we can test it to determine if the DNA does not match you or your spouse. We are here to help you get your answers today. Pick up the phone and call Paternity Lab Center at (800) 416-7407 and our representatives are waiting to receive your call. You can also find us online at Paternity Lab Center and complete the online form for a free consultation on DNA testing.
