How to Get Lumineers from Your Trusted Dentist in CO by Elvera Matos

Article published on June 13th 2012 | Health

Do you want a smile makeover? Do you want whiter teeth? If you answered â€˜yesâ€• to any of these questions, they you can try Lumineers. Lumineers are ultra-thin veneers that are easily installed over the teeth. They are permanent and they donâ€™t require the grinding or reshaping of your original tooth structure. Lumineers are also easily installed, painless, and a way to achieve a whiter smile.

Lumineers are excellent dental innovation and have more advantages than veneers. With lumineers, you donâ€™t have to wear uncomfortable temporaries. There is no pain of drilling your original dental structure because teeth reduction is not necessary. They are just approximately 0.2 mm thick and are highly-translucent which makes them comfortable, light and natural-looking.

On the other hand, veneers usually require grinding your original teeth thus the need to wear temporaries until your veneers are crafted. Besides keeping natural teeth intact, Lumineers instantly whiten teeth. If you have yellow or stained teeth, these will easily be covered in a natural and whiter shade that suits you. Lumineers are extraordinarily strong. You can drink and eat anything you want and not fear that they will chip off. They are clinically proven to last over 20 years.

Aside from these, Lumineers can straighten crooked teeth and fill gaps. They can also correct chipped teeth and lengthen short teeth. And since they are placed directly over your original dental structure, they also serve as protection for your teeth. Lumineers can also be a substitute for braces. They can reshape your teeth and make them appear aligned and proportional.

Some of the dentists Colorado Springs CO has can place Lumineers on your teeth. If you are a resident of Colorado and you want to have a beautiful smile or whiter teeth, it is best to visit your local dentist to discuss about Lumineers. Even if you have existing crowns or bridges, you can still wear Lumineers over them.

Lumineers are backed by over two decades of research and is said to have perfected the science of veneers. The dentists Colorado Springs has can attest to the quality of this dental innovation. Thanks to the Lumineers Smile Design Studio, Lumineers have created healthier and more beautiful smiles among many patients.

The dentists Colorado Springs Colorado residents consult can guarantee that you will get those pearly whites in just two short visits. Lumineers are also backed by a lifetime warranty. If you would like to read up some more on Lumineers, visit lumineers.com.
