Article published on February 2nd 2012 | Health

Hydroxatone is the name that is most frequently discussed among women when it comes to debating the problem of wrinkles and other ageing symptoms. With its proven efficacy and ability to deliver results across all age groups, the advanced skin care formulation is the preferred anti wrinkle product among women who donâ€™t know how to deal with the sudden onset of ageing symptoms.

â€¢Proven Ingredients Delivers a Powerful Performance

Hydroxatone contains powerful and clinically proven ingredients that are known to take care of wrinkles and fine lines by addressing the root cause. Matrixyl 3000 is an important ingredient and can visibly improve the skin complexion and skin tone. It promotes the production of collagen which is primarily responsible for keeping the skin moisturized, supple and soft.

Argireline in Hydroxatone helps reduce the depth of wrinkles, smoothens skin and helps relax muscle fibers to make the surface wrinkles less apparent. It is a unique anti ageing peptide designed to provide fast and visible results. Hyaluronic Acid, another critical ingredient keeps the skin hydrated because of its ability to retain more water. In fact, Hyaluronic Acid has more water retention capability than any other natural substances.

The product features among the top rated wrinkle creams because it also contains SPF 15 factor. It helps protect the skin from the harmful UVA and UVB rays of the sun. The presence of four powerful and proven ingredients in one product is what drives Hydroxatone to deliver a stunning performance when it comes to erasing fine line and wrinkles.

Hydroxatone reviews show that users are overwhelmingly in favor of ordering the product repeatedly because they perceive a difference in the condition of their facial skin. Independent surveys also show that the participants are overwhelmingly in favor of using the product for dealing with their problems of skin texture and softness.

â€¢An Overwhelming Favorite Among Women

Of the participants, 100 percent agreed that the product improved the overall appearance and moisturization of their skin. 97 percent of women said they felt an improvement in the texture and smoothness of their skin after they started using this powerful formula. 97 percent of those surveyed said they wanted to recommend Hydroxatone anti wrinkle formula to their friends too. 91 percent women said it reduced the appearance and look of fine lines and wrinkles from their face.

In general, a high percentage of those who participated in the independent survey (88 percent no less) said they looked and felt younger.
