Article published on January 7th 2012 | Health

Gone are the days when Makeup used to be a word in womenâ€™s kitty. The word Makeup finds its existence in womenâ€™s as well as in menâ€™s dictionary. Makeup enhances the beauty of your face an highlights the looks that you want to accentuate.

Facts gathered by Archaeologists denote that Makeup used to be practiced in Egypt in 4th millennium BC also. They have obtained objects like scented ointments and artifacts of makeup. Makeup industry is a multibillion dollar industry. It is governed by various government regulations so that manufacturers follow the safe guidelines while manufacturing various makeup products. The most common injury that one gets to face by using cosmetics is the skin irritation. Hence, precautions need to be taken not only in manufacturing but also by the users while applying the cosmetics. They must do patch testing before applying the product to the whole part. Users should follow the instructions that are written on various cosmetic products for safe use.

There are lot of career opportunities in Makeup space. There are lot of institutes and Makeup Schools that offer various courses. Few take up courses to become professionals and few take up some classes so as to enhance their knowledge and techniques in makeup space so that they are self dependent whenever they have to do various types of make ups for themselves. Various types of makeup courses are offered by numerous makeup institutes and schools like eye makeup, reception make up, portfolio make up, ramp make up, bridal make up, evening make up etc. DVDs are also available in the market and on line that teach techniques to various types of Makeup
