Article published on March 2nd 2012 | Health

Medspa is a Cosmetic Surgery Center aiming towards de-stressing, detoxifying and invigorating the body. It also works towards rejuvenating, contouring and reshaping the body and the face. Treatments, by making use of high tech and modern medicines are offered in a lavish spa atmosphere. Medspa is the place where the high-tech and modern medicines meet the traditional alternatives therapies. All the treatments combine the benefits of sound therapy, aromatherapy and color therapy.

Medspa is undeniably a centre of excellence that includes a total body wellness program taking into account pain management, weight reduction and stress relief through a wide range of therapies. Achieving high standards in the areas of Surgical Procedures, Non-surgical ones, skin care and wellness programs is what Medspa strives for.

All the treatments at Medspa have outstanding medical value and great aesthetic achievements.

There is a wide range of services at Medspa. These include Cosmetic Surgery, Anti aging, Skin Rejuvenation, Advanced Laser Treatment, Stress Relief, Pain Management, Body Contouring, Customized Wellness Packages and Lunch time sessions. One of the most popular and authenticated treatments at Medspa is the Advanced Laser Treatment. The Advanced Laser Therapy includes a range of treatments like Laser Hair Removal Treatment, Permanent Hair Removal, Removal of fine lines and wrinkles, Removal of scars and skin blemishes, acne treatment, acne scar removal and skin rejuvenation.

Medspa also offers Intense Pulse Light Hair Removal treatments. Less expensive, these treatments are very effective for many skin types. A series of these treatments gently removes hair down to the source and eventually delays re-growth significantly.

Other programs include corporate wellness programs, liposuction package, bridal program, jet lag relief package, anti aging, post partrum, evening out package, stress relief, pain relief package and many more. Medspa truly offers a wholesome approach to wellness.

The Body Contouring at Medspa has Surgical as well as Non-surgical ways. The Surgical Body Contouring treatments include Liposuction, Lipostructure and Liposculpture. The Non-Surgical ways include Mesotherapy, Gx-99 treatments, bodywraps and spotwraps and DynaMed Multiple Therapy System.

Medspa, an American Plastic surgery, skin, dental and wellness institute offers a plethora of options based on your requirements and preferences. All treatments are well researched prescribed by world renowned experts. Boosting up oneâ€™s confidence level, the treatments enhance the overall personality of individuals.
