First Energy Heating and Cooling does more than sell heating oil by John Marc

Article published on December 12th 2011 | Home

First Energy Heating and Cooling does more than sell heating oil. We also provide boiler installation and boiler service for existing systems. Maintenance contracts are available for a variety of systems that saves the owner money over time. Every system needs regular inspection and maintenance so it can provide efficient heating and cooling over its lifetime.

Even with regular maintenance, systems can break down. Pipes can leak or break; boilers can develop problems as well as a host of other things. With a maintenance contract, First Energy and Cooling will provide boiler service and repairs twenty-four hours a day, seven days a week. If the existing boiler needs replacement, we provide boiler installation with a unit that will work with the existing system. We also provide excellent service for electric and gas water heaters.

Customers can order oil online, or by phone seven days a week. We offer the best-discounted prices for heating oil in the state of Massachusetts. We deliver to both residences and commercial systems. First Energy Heating and Cooling also does boiler installation for businesses, as well as provide commercial boiler service.

For residents needing assistance with fuel prices, First Energy Heating and Cooling proudly works with a number of agencies that may be able to help. A list of these agencies is available on the company's website. There is no need to be cold during the winter months when help is available.

The company's website offers a detailed list of 29 items performed during routine boiler service and maintenance. The technician will provide the owner with an explanation of the boiler's efficiency, his or her observations and recommendations.

First Energy Heating and Cooling has expertise with a number of different systems. Steam boilers, gas or oil heated, forced air heating and cooling and more are serviced by well-trained technicians. Boiler installation is available for newer and older systems alike, even if the original system is no longer manufactured.

Do not wait until there is a problem with your system or the boiler is empty to call us. We can be contacted online at our website, firstheatingandcooling.com, and by phone at 1-800-339-3302 anytime day or night. In the event of an emergency, call immediately and let the operator know you have an emergency. For regular service, call or fill out the online form and our staff will contact you to set up a convenient time to come out.
