Article published on July 5th 2012 | Home

There is nobody in the world who does not want his house to look beautiful and attractive. For doing the same, people sometimes change the entire interior right from the furniture to the wall color. However, nobody seems to pay attention to the doors. They remain the same as they were from the beginning. Doors are also part of interior and play an important part in beautifying the house if done properly. If you really want to make your house look outstanding go for Shoji screen doors. They have a traditional look but go perfectly with modern interior.

You can never go wrong with your selection of this kind of door. Your place would get a different look altogether once you have installed shoji screen. The kind of doors you have been longing for so many years are right there installed in your house now. You can even use these interceptors as enclosures or room partitions, which are not possible to do with ordinary doors. Normally, this kind of door is used to let the bright light from outside to enter the room as soft diffused light. These doors are made up of timber hardwood frame, which has the required density and grain. Use Shoji sliding doors as sliding wall partitions or room dividers as per your wish and requirement. These are very easy to customize are available in a range of different colors. You can even go for the regular clear lacquer or black lacquer. You can use these screen doors outside the room or let it run in a cavity as well. These light weighted and elegant looking doors can be used in big as well as small space, in house or in office..
