Article published on February 17th 2012 | Home Business

What we really pride in is providing not just socio-business data of UK, the US, Australia, Canada and New Zealand, we serve our clients with the precise data whose error range is .001. Itâ€™s because our data base is continually being updated or reviewed by our well-equipped and alert market research team for accuracy and easy accessibility. Our business data, consumer data, residential data and school data go through the check every time the globe turned its face to the sun.

Goods or services, you spend precious time and money producing them and spend another fortune marketing them but, hereâ€™s the catch, where do you get the most important accurate information of your intended target? Itâ€™s has been a Herculean task till 24by7data made it easy and possible. Feedbacks from our contented customers say they find the emails, fax, phone and address we provided mighty helpful and correct. And accuracy leads to hitting the bullâ€™s eye. The response success in most success instances has been in the realm of 70-75 percent. Quite often an assortment of all from mail to address may be required to have a winning combination in marketing your stuff.

Targeted marketing is made easier because we have a system that helps you sift the wanted. What you need only you know best but we leave out nothing so that you have everything on a platter to choose from. That, you bet, saves money and time and trouble.

Satisfaction guaranteed is not a hollow slogan for 24by7 people. We supplement any data with half the price for our existing customers and any error is corrected free of cost. Successful biz people know what is good for them. This is the reason for our name cropping up first in their mind when you aim your valuable product marketed. Help is available, true to our name, 24 hours, seven days.
