iSurveyor wants to introduce you to property experts who can meet your property needs. Whether you are buying, selling or renovating a residential or a commercial property, iSurveyor.com can offer a professional introduction service, saving you both time and money.

Where iSurveyor.com can help you

Buying a commercial property? The right research and expertise is essential. To minimise risk in such a large investment you need a qualified surveyor. They will consider the Valuation, Structural Issues, Disability Discrimination Act compliance, Planning Use, Building Condition, Asbestos, and Restrictive Covenants, and these are just a few of the issues to be investigated. If you are purchasing a commercial Lease, your needs will still be similar. Special attention must be given to the Leasehold Agreement. This may all sound overwhelming but the right legal and professional property advice, provided through iSurveyor.com, can make the process much smoother. Get quotes and contacts to cover each of these aspects, by clicking on the links above. Tell us what you need, and we will find you your property expert.

Our Services :

Structural Survey

A Specific Structural Inspection (SSI) is a visual inspection of a particular structural problem or concern, and would include any related matters. It should be noted that parts of the property not related to the specific problem may not be inspected. However, if the Engineer/Surveyor were to identify any other structural problems or concerns during the course of the inspection, these might also be noted in the report.

Architectural Design

An Architect, or professional providing an Architectural Design service should have relevant experience of producing quality and where appropriate innovative designs for a wide variety of conditions.

Planning

Assuming that an application for Planning Permission is needed, the next step is to determine what the Local Authorities have in their overall plan for the local area and how you can personalize your requirement to hopefully fit within this.

Our Surveyors :

Rent Review

Lease Renewal

Valuation Survey

Building Survey

Rate

Commercial Property Valuation

Comercial Property Management
