Always be smiling with your Henry vacuum cleaner by Julia Bennet

Article published on April 27th 2012 | Home Improvement

When someone buys a new vacuum cleaner they are really happy about it. And why shouldn't they be? A vacuum cleaner really helps people keep their homes clean and dirt free. But it is after using the cleaner for a few months that people feel totally bored. Using the vacuum cleaner becomes a laborious chore. This is where the Henry vacuum cleaner makes a difference. The Henry vacuum looks different from standard vacuum cleaners and it is total fun to operate.

What is special about the Henry vacuum cleaner is its look. Some people think that the Henry vacuum reminds them of the VW Beetle. This vacuum cleaner, like the Beetle, looks like a cartoon character. It has two sparkling eyes and a smiling face. The nozzle acts as the nose of the Henry vacuum. When you buy the Henry vacuum cleaner you get your home cleaned in a fun way. Even children have great fun when their home has a Henry vacuum cleaner. That people love Henry is evident from the sales figures it achieves year on year. Manufactured by Numatic International Ltd, the Henry vacuum is one of the highest selling vacuum cleaners of all time.

Is fun the only thing good about the Henry vacuum cleaner? There are actually more things about it. It is considered one of the highest performing vacuum cleaners in the world. It has a TwinFlo' two stage motor that offers exceptional performance. The Henry vacuum also has something called Autosave that allows it to save 50% more energy than normal vacuum cleaners. The air quality of the Henry vacuum cleaner is considered 30% better than standard vacuum cleaners. As far as the noise level is concerned, it is 20% quieter than standard vacuums. The Henry vacuum also has two modes - economy and hi. The economy mode is the standard mode and switching to hi allows you to clean the grittiest of dirt particles.

Operating the Henry vacuum cleaner is also simple because the cable storage can be completely re-winded. This means you don't need to collect the cable every time you are through using the Henry vacuum. Press a switch and the cable goes back inside the cleaner. The Henry vacuum cleaner also has the Tritex filter system and HepaFlo dust bags. This means that no captured dirt and dust particles can come out and the filtration is absolutely efficient.

The good news is that the Henry vacuum cleaner can be bought online in Australia. There are specialized websites that sell the Henry vacuum. All you need to do is check the models that are available, choose the one you want, pay for it online and have it delivered to your doorstep. And once you start using the Henry vacuum cleaner there is no other vacuum cleaner that you will like.

People the world over love using the Henry vacuum cleaner. The famous smile of the Henry vacuum makes its owners happy and proud. Ask any owner of a Henry vacuum cleaner and they will only gush about it.
