Article published on March 19th 2012 | Home Improvement

Pattern imprinted concrete is a popular material used for creating driveways and walkways. If you live in Manchester or Cheshire and are looking for companies who can provide you with a new driveway then there will be many to choose from. Some driveways Manchester companies will specialise in pattern imprinted concrete and others in block paving. Both are popular choices and will make your driveway look stunning. Pattern imprinted driveways Manchester are a popular choice as they are long lasting, hardwearing, donâ€™t sink and stay free from weeds. They require virtually no maintenance and will make the front of your property look clean and tidy as well as very stylish.

Driveways Manchester and driveways Cheshire companies will have various different patterns and colours of pattern imprinted concrete that they can make wonderful driveways, paths and patios with. Most pattern imprinted driveways Manchester are made using a two tone colouring technique with popular shades being grey and natural earth tones such as brown, yellow, orange and red. If pattern imprinted driveways in Cheshire are well looked after and kept clean they will not fade and they will repel oil and anything else that can cause marks and stains. This is one of the benefits of this type of driveway compared to block paving which can easily get marked and also tends to attract weeds over time in the joins.

The process of laying pattern imprinted concrete driveways in Manchester or driveways in Cheshire is as follows; first the driveways Manchester company will remove your existing driveway and dig down to around eight inches. They will then lay around 4 inches of hard core what is used on roads. The concrete is then laid. This is coloured and patterned all on the same day. It takes two days to harden completely then it can be washed, left to dry then finally sealed. The cost of driveways Manchester and driveways Cheshire will vary depending on the size, colour and pattern options you choose.
