Article published on May 24th 2012 | Home Improvement

You will be repeatedly shipped to the terrain of Eureka Forbes in India at the very utterance of the term, â€˜water purifierâ€™. Such is the reputation of the company, a household name in India. Since its inception in the year 1982, it has maintained an enduring relationship - a relationship for life. Towards meeting this objective, Eureka Forbes in India has added to its product kitty newer systems in sync with the latest and futuristic trends and technologies. Today, millions of consumers in India are leading water-borne disease-free lives, using purifiers from this company. The count of consumers is only increasing by the day. While a total of 40 million consumers constitute the complete products users; over 8 million constitute the purifier segment alone. It is no surprise if you find the Eureka Forbes RO system used in most areas where use of RO is recommended. Besides quality, technology, and innovation another reason of the increasing count is the prompt and excellent Eureka Forbes customer care service support.

It is continuous exploration and evaluation of ideas that technology and innovation are given shape. In the research process, only suitable ideas are adopted and implemented. The ultimate objective behind this venture by Eureka Forbes India research experts is directed towards bringing safer, better and increasingly valuable technologies to the consumersâ€™ advantage. AquaSure is one of its award-winning popular brands, a true example of this research initiative. All AquaSure purifiers are available at all leading consumer durable, home appliance and modern organized retail.
