Different Types of Garden Gate Closer by [Mary Porter](#)

Article published on July 13th 2012 | [Home Improvement](#)

Garden gate closer is an essential item to ensure your gate is securely closed at all times. Garden gate closer is a must if you have pets or small children playing or wandering around in the garden to stop them from escaping from the garden. There are many types of gate closers from robust pedestrian gate closers, controlled gate closers, or garden gate closer. All these gate closers have different purposes and uses therefore all have their own benefits such as easy to lock or increased security.

Pedestrian gate closers are commonly used in residential or community gated areas where there is a high volume of through traffic at all times of the day, this type of gate closers must be secure vandal proof and automatically close on its own as many pedestrians may not be check that the gate is fully closed. Pedestrian gate closers could use magnetic strips to force shut the gates quietly and slowly the gate can then be opened either through a key code or fob access. Pedestrian gate closers fit to most types of garden gate closer either vertically, bow top, wrought iron, timber and most other types of garden gate closer.

Controlled garden gate closer is an economical option for entrances that see many safety conscious visitors such as parents, teachers, guardians when they enter or exit admission gates to nurseries/kindergarten, schools, industrial plants or any type of garden entrances. Controlled garden gate closer do not use a spring mechanism therefore the gate is not slammed shut by force but it uses a slow and controlled motion on the garden gate closer. This type of garden gate closer reduces the danger of accidents or injuries by preventing the gate from hitting the person passing through the gate and the garden gate closer is secure enough to prevent children from running out into the street or off secure premises. For an extremely low cost option you can find basic garden gate closer to fit any domestic flush gate and frame to keep garden gates firmly closed.
