Looking to make a home improvement to close out the summer? Let Tri-State Creations, a top remodeler for basements, come in and create a new level in your house for you, your family and your friends to enjoy. A finished basement can provide your house with a new dimension in regards to comfort and storage, and offers many benefits that give you both short and long-term benefits.

Like other home improvement investments, a finished basement should let you live more comfortably, and provide a good return on investment. Unlike the first and second floors of your house, your basement is naturally insulated by the ground, and is not subject to above-ground climate changes. With that said, your finished basement will remain cooler in the summer and warmer in the winter, and will often be the most comfortable room in your house.

Here is a list of the possibilities that lie underground:

- Living area
- Â Family area
- Â Office or Personal Library
- Â Theater
- Â Childâ€™s Den
- Â Additional Bedroom
- Â Bathroom (full or half)
- Â Hobby room (memorabilia, gym, tools)
- Â Bar area or Game Room (pool, darts, ping pong)

Itâ€™s hard to believe but your basement has much more space than you probably give it credit for. You can essentially add a story to your house by adding 1-2 bedrooms to your house, as well as a brand new bathroom.

Need a place in your house to store your favorite collectibles? Set aside a portion of your basement for a â€œsports room.â€• How about adding a personal gym and never have to pay for gym memberships again? If youâ€™re feeling lucky, add an in-home theater equipped with surround sound and invite your friends and family over for movie nights. Throw an annual house party with your brand new â€œundergroundâ€™ bar. Imagine serving your family and friends cold drinks while they play pool, throw darts and watch the football game.

With Tri-State Creations, Home Improvements And Renovations has never been more accessible and more affordable. We offer the best Home Improvement Financing options, and you can finance your renovations no matter how much equity you have or what your credit is. Oh, and do it all with NO MONEY DOWN.
