Window treatment helps to add glamour and style to your home interior. If you are planning to redecorate your home and wish to add elegance and style to living space, then real wood blinds is the best option to go for.

Real Wood Blinds helps to create lavishing style and showcase strained personality to a home, and this is the main reason behind extensive use and popularity of Real Wood Blinds for window treatment over the other type of blinds. You may have to spend some more money for real wood blinds compare to faux wood blinds, but they offer long life durability if you know how to maintain it properly.

Replacement wonâ€™t be an issue next few years, if you properly maintain it. In addition, to maintain its nice wooden texture, it is crucial to properly clean them to maintain its wooden appeal and beauty. Maintaining real wood blinds is quite easy and feasible, and this is the main reason why people choose it for their window treatments.

Do proper cleaning & take few basic precautions and thatâ€™s it! You donâ€™t need to make such hard hitting efforts in order to maintain real wood blinds as it is for life time. So, to help you out maintaining their texture and keep them intact from other effects, below I tried to list out some basic tips for cleaning and maintaining real wood blinds appropriately.

1) Always pay more attention while choosing material for real wood blinds! Choose the material based on the area you wish to install it. For example, installing real wood blinds in bathroom or kitchen would be in appropriate as various factors like moisture and humidity will decrease the life of blinds. So, first thing you have to keep in mind is â€œchoosing material based on location or area within houseâ€•!

2) Avoid using soap or water to clean up this type of wood blinds! It is true that real wood blinds come up with special kind of epoxy, but remember that this sealant is very thin and washing them with soap or water may cause leakage which may later on harm your wooden blinds. This at the end spoils its look â€˜nâ€™ feel. So, avoid using soap or water.

3) Prefer to use vacuum cleaner for cleaning your blinds! It will help to remove dust from your real wood blinds and helps to make it look neat and clean.

4) Try to brush up the blinds with light hands or attach brush with vacuum cleaner, this will help to easily remove dirt and small particles from the real wood blinds.

5) You can also use slightly wet cloth to wipe the blinds properly.

So, these are some handy tips to help you keep your real wood blinds intact from dust and dirt with appropriate cleaning! Please visit for more info http://www.zebrablinds.com
