Article published on June 14th 2012 | Home Improvement

A pebble area rug can suit your flooring well. You can find many varieties in this category. Different colors and shades for the pebble design of the rug, makes it look exciting. You can have them in the outdoors as well. This is because of the natural look they render to the space. Experiment with varied kinds of them for your home interiors.

Different types of unique pebble area rug

â€¢ Shag rugs: There are many shag rugs which have patterns of pebble stones on them. You can have a loop knot construction. The cut loop one for the strands is also good. A blunt surface of soft fiber in the shape of pebbles will look amazing. You can have these rugs in the kitchen and bathroom area.

â€¢ Contemporary rugs: These are one of the best in pebble rugs. You can look for the animal print rugs in this category. Having pebbles design in this form is creative for the floors. Plain surface with alternating small and elaborate pebble patterns will look nice. You can utilize these floor rugs in the room of your choice.

â€¢ Traditional rug: You can have a pebble rug in traditional pattern also. Purchase an Oriental rug or Tribal rug with intricate patterns of stones or pebbles. You can also see through online sites for the transitional rugs which have similar designs. You can place these area rugs in the hall and guest room.

â€¢ Eco friendly rugs: Natural rugs are famous in these rugs. Pebble rugs which possess natural fiber and use vegetable dyes are Eco friendly. You can try wool rugs or cotton rugs with pebble patterns on them. You can use them in the main areas of your home like bedroom and living room.

â€¢ Runner rugs: Most extraordinary rug for the pathways and outdoors is the runner rugs. You can feel the closeness to nature with pebble rugs here. You can decorate the staircase area with these pieces as runner rugs. Gateways and garden road can have these pebble rugs.

â€¢ Braided rugs: These rugs have a strong structure and frame. You can even learn how to make a pebble rug here. Braided patterns of smooth pebble can be seen in these area rugs. Therefore, in the kidâ€™s room these floor rugs can look alluring. You can also experiment with them in the basement and backyard.

â€¢ Ornamental rugs: These rugs are exquisite and decorative. Hence, pebble rugs with ornamental patterns will look charming for the home interiors. They can go well in every season for your floors. Silver and golden threads and borders with pebble designs can look trendy and effective for many rooms.
