Article published on June 19th 2012 | Home Improvement

Want to update the look of your wooden sash windows but canâ€™t afford to replace the period frames? Sash windows do look stunning and itâ€™s a shame when they start to show signs of age. Donâ€™t wor though, there is an alternative, all you need is a Sash window renovation. Thereâ€™s no need to rip out the old frames just titivate and update with a Sash window renovation. Itâ€™s the no-nonsense approach thatâ€™ll leave your windows looking fabulous and a Sash window renovation is more practical and affordable that you might think.

Worried that your wooden sash windows are beyond repair? Find out for sure and speak to experts in Sash window renovation.

What can you have done?

Thereâ€™s more to Sash window renovation than meets the eye and youâ€™ll be surprised at the level of work that could be completed when wooden sash windows are renovated. To begin with all that rotten wood will be replaced as part of the Sash window renovation, itâ€™ll be sanded smooth, primed and painted with a fresh coat of gloss to leave the frames looking like new.

The sills could be replaced as part of the Sash window renovation and those old sash lifts, pulleys and cords will be exchanged with brand new features. Once the Sash window renovation has been finished the frames will look beautiful once more. Have a Sash window renovation and for all intents and purposes youâ€™ll have a new set of windows for a much lower price.

Feel the difference straight away

There are obvious visual benefits to having your wooden sash windows renovated, letâ€™s face it, the windows will look gorgeous. However, itâ€™s other aspects of the Sash window renovation that youâ€™ll notice straight away.

Have the windows draught-proofed as part of the Sash window renovation and youâ€™ll stop heat from escaping from your property, the house will feel warmer and youâ€™ll cut down on pricey energy bills. Plus the property will be noticeably quieter following a Sash window renovation, traffic noise and other outside sounds are dramatically reduced.

So a Sash window renovation improves the look of your frames, it keeps your warmer, cuts down on bills and is cheaper than having replacement windows. What more could you ask for in life?
