Selecting the Right Garbage Can for the Kitchen by Alena Smith

Article published on March 26th 2012 | Home Improvement

Garbage Can for the kitchen are available in various styles, shapes and sizes. Determining which one would best fit your kitchen can be difficult with so many options available. Below are the three most popular Garbage Cans available today.

Plastic Garbage Cans

These cans are ideal for kitchens that have cabinets designed to conceal them from the naked eye. They can also be placed inside a pantry or utility closet if available in your kitchen. The plastic cans are the least expensive option to choose from.

Wooden Garbage Cans

Depending on your decor, the wooden cans can make the perfect finishing touch to your kitchen. They are available in various shapes and designs. They can also range a great deal in price depending upon how elaborate you want to get. One thing to keep in mind is that wood has a will absorb odor. With that in mind, wooden garbage cans need to be placed outside where they can air out occasionally to eliminate this problem. Another thing that is perceived as a drawback with wooden garbage cans is they can stain. While many wooden Garbage Can come with a sealer on them to prevent stains, this is still a possibility that you should keep in mind.

Stainless Steel Garbage Cans

Perhaps the most popular type of can for the kitchen when it is going to be seen by others is the stainless steel models. They are available in numerous sizes, styles and designs ranging in price depending upon which model you select. These Garbage Cans are not only attractive, they are also functional. Typically, they come with a plastic insert allowing for easy cleaning.
