The Ultimate Window Dressing Solution Through Top Down Bottom Up Shades by Smith Williams

Article published on March 26th 2012 | Home Improvement

If you are bored of using those clumsy looking curtains or the old fashioned window blinds with wires hanging shabbily from them and want a complete makeover for the room then going for the top down bottom up shades is of course a wise idea. These cordless cellular shades are capable of controlling the entry of sunlight and harmful UV rays along with providing a complete privacy from the curious peeks of outsiders. With latest innovations in the field of manufacturing these shades, there have been a lot of improvements in the quality of these top down bottom up shades. The new versions of these top down bottom up shades are more reliable, energy efficient and convenient for use. These are also safer for kids and are available in a large variety of styles, fabric, materials, shades, patterns, prints, color combinations, etc. These shades have a very simple structure where each part works independently. These shades are very efficient in blocking about 99%. These shades can be used not only inside a room, but also on the patio doors and window exteriors.

These top down bottom up shades are totally different from the monotonous normal blinds and curtains. They come in a wide variety and are a very popular window dressing solution for all kinds of spaces like, home, offices and other commercial spaces. These provide protection to the furniture and upholstery from getting faded due to the sunâ€™s glares. These top down bottom up shades are available in a variety of widths and lengths and so can be installed on unevenly sized windows as well. These shades are commonly used in shops and departmental stores as they can be ordered in any size, color, design, texture and shape to suit and blend well with all interiors. These shades come with a lifelong warranty and are readily available in all stores. These shades are very easy to be cleaned and are not prone to blending either. Privacy factor is also handled well by installing these shades on your windows.

Installing the perfect top down bottom up shades can drastically transform the appearance of a room by adding warmth, glam, style and elegance to it. They block sunlight and provide privacy. These shades can play a very important role in creating an impression of your taste on your guests and so one should go an order these from the stores. These can be custom made as well. One can choose materials for making these shades from silk, cotton, cellular, bamboo, etc. They also come in moisture resistant material which is a great option to do the windows of the bathrooms. Select the prefect top down bottom up shades and let it add the character to your place. They cut down on the power bills and sunlight and provide style, elegance and complete privacy to any place.
