Wood lockers and box lockers popularly used as school lockers for their durability by [Locker Locker](#)

Article published on May 14th 2012 | [Home Security](#)

Wood lockers and box lockers are generally an important commodity and are widely used in schools, gymnasiums, community centers as well as in homes. For those looking for good options in lockers must visit Locker Emporium for a wide range of good quality lockers with pleasing designs.

This is a branch of Mailbox Emporium and makes lockers available that can withstand regular use and for storage purposes. There are various types of metal lockers, wood lockers, box lockers etc. available in different sizes like standard size locker, extra wide lockers and even vented lockers. Lockers are used to store anything from books, journal, projects and the vented ones are particularly useful in gyms where clothes and shoes need to be stored. Locker Emporium is also known for good quality school lockers that are now available in plastic as well as the standard metal frame. These are also available in box styles, single and double tier as well as triple tier extra wide designs.

The wooden lockers are available in various designs and are constructed by using great materials which are easy to clean and maintain. The fabulous lockers are available in various sizes and tiers which can be kept anywhere in small space against the wall. These can be used in hotels or restaurants as they look classy and stylish.

The box lockers are another options which can be used in banks and companies which will be perfect as they are small in size and are important in storing in important documents and files. They are available in various designs like Box Bridge. The triple lockers are having three tiers which mean three floors one on one and have in total nine lockers.

They are wide and can long. You can easily store many things in the lockers. There are plastic lockers which will be available in single tier or box style. The plastic lockers look fantastic when placed in hotels or schools. They can be used anywhere in gyms, restaurants, banks, offices, etc. The lockers are also used in clubs and near swimming areas due to plastic material which are easy to take care off. You can get the lockers according to your need.

Free up space in your basement or garage by storing surplus or occasionally used items like Christmas decorations in a box locker. Metal and plastic lockers are weather resistant and also do not let water and damp affect the stored items while ensuring a neat and organized exterior. Locker Emporium guarantees that they offer the best rates among all authorized internet dealers and so sure are they of their rates that there is 100% money back if anyone can buy the same product cheaper online. Schools and colleges buying in bulk from this organization can avail of a special volume discount for their orders.

Choose from designer wood lockers that will enhance any area and even customized options are available for those wanting something specific for their storage options. Locker accessories like benches and good quality locks are also available. Check out the solutions at Locker Emporium for wood lockers and visit the site at www.lockeremporium.com for your short term storage requirements.
