Are you one of the thousands who have been mis sold PPI?

Believe it or not, this has been quite a common occurrence in recent years as many people have been mis sold PPI under false pretenses. They either were told it was necessary in order to secure the loan or they were overcharged in paying rates far higher than the average. In either case, you need to find out if you were mis sold PPI and then find the professionals with years of knowledge and experience to get your money back.

How do I know if Iâ€™ve been mis sold PPI?

That question is fairly easy to answer, but the first step is going to the people who have reclaimed money spent on premiums for PPIs that were never needed. They have all the experience and know-how to identify a mis sold PPI and discover just how much money you are now owed in return. Thanks to the passage of new laws, recovering your money has never been easier, but it still takes a trained professional to create the right documents and present the proper case in order to secure your funds.

For those who have been mis sold PPI, they usually were either pressured into purchasing the payment protection insurance or lied about PPI being required for their loan. By going to the trained professionals, you can find out quickly if you were mis sold PPI.

Do I have to act immediately to reclaim money from a PPI?

Yes and no, while there is no set time limit, the sooner you act, the better especially if you are currently making PPI payments. That way, you can save money before you spend it on a PPI you either did not need or were being overcharged.

Can I reclaim Payment Protection Insurance premiums if Iâ€™ve already made a claim on the policy?

Absolutely, the fact that you did have to use the PPI to make payments does not preclude you from getting back money that you overspent on premiums. Of course, the share of the money you get back will be smaller since you did make a claim, but you are still entitled to any additional money that was overspent in the PPI process.

What Do I Need to Do to Start the Process of Getting my Money Back?

The first step is seeking out the trained professionals who have worked with thousands of clients to get their money back that they overspent on a mis sold PPI. There is no risk on your part when you seek their services. They will examine your PPI for free and discover if it was mis sold or if you overpaid. If your PPI is appropriate, they will not charge you any money for the consultation. However, if you have overpaid or were mis sold PPI, then they will gather the appropriate documents and file your case promptly to get your money back. What they charges is generally a small percentage of the money recovered.

So you have nothing to lose and everything to gain when you seek the qualified professionals trained to hand PPI recovery cases. Donâ€™t waste another moment and potentially lose even more of your hard earned money , call today and find out if you have been mis sold PPI.
