Decorative Veneers: for Transforming Simple Projects into Masterpieces by Phil Marsh

Article published on May 23rd 2012 | Interior Design

Decorative Veneers are great additions for interiors; they add beauty as well as value to the space inside. And, since veneers are so durable and affordable, theyâ€™re a must for every home lover.

Veneers are available in different cuts such as quarter and crown and different forms such as vertical, horizontal and slip method veneers. Obtained as thin shavings from lumber, veneers are then glued to core panels (wood and/or particle board) to produce panels of various shapes and sizes such as cabinet panels, table tops and furniture.

Greenply, a leading manufacturer of veneers and laminates, has come out with a wide-range of veneers under the brand name of Green Decowood - â€˜Green Decowood Impressionsâ€™, â€˜Green Decowood Specialsâ€™ and â€˜Green Decowood Standardsâ€™.

The first collection, â€˜Greenply Impressionsâ€™ offers around 20 wood species in 10 different textures such as Array, Bristol, Honeycomb, Flora and Petals. It is also to be noted here that these veneers are produced using the patented MITT technology.

Then, there are two more categories to explore â€“ â€˜Green Decowood Specialsâ€™ and â€˜Green Deco Standardsâ€™. The collection, â€˜Green Decowood Specialsâ€™ offers over 50 artistic patterns such as Barcode and Sapwood. Pick veneers from this collection to transform simple projects into words of art. Then, you have â€˜Green Decowood Standardsâ€™, which offers over 200 veneer species in three categories, which are Pristine, CMYK and OPUS. So, the homeowners have more designs to choose from; itâ€™s easy to create a home that brings you a little closer to nature.

Itâ€™s easy to create a dream-home when youâ€™ve world-class products like decorative veneers, especially when youâ€™ve such a range of designs to choose from. And, then they are affordable and durable as well.

However, one thing that you should never forget is that you buy veneer products from a reliable company so that you get value-for-money products and never regret your purchase. Green Decowood from the house of Greenply is your safest bet; you get great designs at amazing prices. And, when you buy something from Greenply, you are always assured of top quality and best-competitive prices.

Hope this article helps you in your home dÃ©cor project and picking up the value-for-money products!
