Living room, the most important room in the house to create a first impression on your guest, and is also used for entertainment, like watching television, reading books etc. It is generally the first room in your house, so decorating a living room does take a little bit of thought and some hard work or should we say smart work! A well decorated and well maintained living room will form a lasting impression, on the minds of the guests who visit your house.

Create a plan for your living room décor by including colors, furniture, wall and window treatments and accessories. This way you would avoid buying something that is not wanted and you would end spending according to your budget.

Living room is a place that spells comfort, so make sure the revamped living room is cozy and practical. It is a multifunctional room that offers ample space for the family to lounge together, or a place where you can read books. Comfort should be your main focus while decorating this room. Use laminates that are the latest trend in home décor, get the best range by just browsing online for Greenlam that offers laminates catalogue where you can find a range of best laminates like laminate sheets, laminate countertops etc.

Furthermore, adding furniture that is compact and stylish would make the room comfortable and stylish. Place furniture in your family room according to the choice and preferences of your family members. Laminates are the latest craze among people and they are used in furniture countertops; go through the online laminates catalogue offered by Greenlam, it offers the best laminates option in the form of laminate sheets, laminate countertops, eco-friendly laminates etc. There's also an amazing option known as plastic laminates for home décor. This is a unique variety of laminate sheets that feels like plastic. Plastic laminate sheets are available in a wide range of colors and designs and can be applied on table countertops and other raised surfaces. In case you are looking for something unique for living room decor, then plastic laminates are an apt choice.

In order to make the room appear more interesting, lay down beautiful rugs in the room to give it a defined space and great comfort. It simply makes a jerky room turn into a beautiful one. It would also serve as a focal point and induce the element of color, and various patterns to the backdrop.

Splash bright colors in your room like, blue, green, orange and red, it will bring a smile to your face. Red and orange are energetic colors, giving you positive energy, while blue and green lends you a calming effect. Bring on the entertainment factor by placing decks and speakers. Accessorize with family games, photo albums, arts and crafts. A warm and inviting place is ready to be explored!
