Whimsical Tree Wall Decals Can Add Style to Most Rooms by Jane Smithson

Article published on March 21st 2012 | Interior Design

Not everyone is blessed with a creative gene for painting. Not everyone has a green thumb. And not everyone has the means or ability to paint their walls or maintain indoor plants. That's where tree wall decals come in. They're the perfect way to bring a touch of the natural world indoors without spending a penny on paint or damaging walls.

Wall decals are a wonderful way to decorate beyond just a flat color of paint. Every decal gives the illusion of a professional paint job without the hassle of hiring someone. They're perfect for any occasion and can be used long or short term. Designs are printed on high quality vinyl and easy to install. Almost like a giant sticker.

Best of all, wall decals aren't permanent. Any time you feel like changing things up, just peel them off and replace. No residue from the decal is left on your wall and you can start from scratch. Because of the thin vinyl, designs arenâ€™t reusable. However, that makes them perfect for special occasions. No need to find a natural arbor when you can easily make one out of tree wall decals.

Tree wall decals are the perfect fit for any room, occasion, or even outdoor space. They add a touch of whimsy or elegance wherever they're placed. Each tree wall decal is designed specifically to fit any style. The tree wall decals come in natural looking versions or stylized; brightly colored or toned down; in sets of many or just one singular decal. The choice of tree wall decal is entirely up to you.

A tree wall decal is wonderful for kidsâ€™ rooms. Surround them in nature's welcoming embrace without having to worry about them destroying real plants. Adding animals to the tree wall decal designs is easy, too. They either come incorporated into the design or individually, according to your preference. Decals are as easy to change as your child grows and changes. Their room will look professionally painted every time.Â

Want to add a little something to your bathroom? No worries, wall decals can go there, too. Any smooth, clean surface will do. Decals are easy to customize for any space so long as youâ€™ve got scissors. However, tree wall decals are also available in the correct size, so cutting on your part is not necessary.

Installation is a snap. Decals usually come in three layer sheets: backing paper, decal, and transfer paper. Simply position your decal on the wall, peel off the backing paper, smooth out the design, and peel off the transfer paper. Voila, instant tree! With relatively little mess, too. Larger designs overlap seamlessly during installation, leaving no one the wiser.

Worried about cleaning your decals? No need to worry. Simply wipe the decal clean with a damp cloth. If the decal is too damaged, simply remove and put up a new one.
