What is the usefulness of back icons?

by Meghnath Kumar

Article published on February 28th 2012 | Internet

The design and use of stock icons (images) is decreasing day by day. Thousands of programmers and developers are competing with each other to come up with attractive icons. The back icons have also become popular and they are divided in to several categories. To know more about back icons, simply visit http://www.sibcode.com/icon-archive/back-icon-images.htm. You will find that the first category of these icons is the â€œWeb 2.0 Icon Set for Site Designersâ€•. Once you will click on that link, a new window will open, showing you several icons (images). These icons can be used in the Web 2.0 portals. This holds around two hundred and forty five icons, useful for both portals, blogs, forums, social networks and e-commerce web sites. The web page will also include the most common actions, navigation elements, objects and symbols. You will also find the images of some popular networks.

The Perfect Web 2.0 back icons come with royalty free license. In this way the images can be reused in some other projects. There are three formats available for these back icons such as PNG, Bitmap and Windows Icon. This complete set of Web 2.0 back icons is only for fifty dollars. What else we want? Fifty dollars means nothing, when we are having such a wide collection of unique icons.

The Perfect Web 2.0 icons include RSS, Forum, Blog, Orange Twitter, Twitter Bird, Online Cube, and Blue Twitter and Follow me icons etc. Each and every icon is so beautifully designed that you will not feel like leaving any icon. We are sure that the above mentioned URL consists of an unlimited variety of icons.

Simply use the product basket of the web site. Click on the back icons, which you want to add to your basket. You have two modes of payment, via PayPal or via Credit Card. You can have these cute and multi colored icons once you will make the payment. You will receive the chosen icons through an email. You can then download them from the received email.

When ever you visit the above mentioned URL, make sure you pay a look to the back icon named as as Virus. It is pink in color and completely designed in a virus shape. It is very attractive and you will surely buy that one.

Have you ever thought about the usefulness of back icons? These icons simplify the computer interface for the user. They can be used to represent operating system, applications, files and folders. Almost every web designer and developer makes use of these icons.

Once you visit the above mentioned URL, make sure that you visit each and category of these icons so as to find your favorite icons. You will get to know about the icon editor. Make sure that you know the required size and format of the icons. In this way you will be able to buy the right ones for your computer. You can even recommend this web site to your friends so that they can found unique icons too.
