Digital Marketing & the WSI Franchise by Jamshaid Hashmi

Article published on March 22nd 2012 | Internet Business

Digital Marketing is an essential part of the WSI franchise experience.

As with all of our efforts, this ties in to assuring our franchisees that they have control of their own business operations, but are not in business alone. They have the backing of a world-wide network as well as access to eMarketplace resources.

WSI already has a strong digital marketing presence. We have a track record of success and strong reviews from Fortune 500 sources. In your own marketing efforts, this is strong material that you can use in your favor, both in generating new clients and in serving your established customer base.

The owners of small â€“ to medium-sized businesses, which are our specialty, are often very good at what they do, but donâ€™t necessarily have the time or resources to effectively leverage online marketing. Thatâ€™s where your WSI Internet Franchise comes in. You can offer them your certified expertise in online marketing strategies, and help them achieve the best solutions possible.

That best solution is where WSI Corporate comes in. We give you the training and support necessary to know how to market your own business as well as your clientsâ€™ business. WSI franchises are all about making things easier for everyone.

Youâ€™ll learn what sorts of options are appropriate, such as developing a marketing blog for your franchise. A blog is a great example of outside-the-box marketing savvy, allowing you to show your own businessâ€™ personality. Letting personality shine through reassures customers you arenâ€™t simply an outlet for a bigger company, but your own business drawing upon greater resources to help their needs.
