Article published on December 27th 2011 | [Investing](#)

Over few years, YouTradeFX has emerged as one of the most reputed broking companies in the field of forex trading. They started out in 2009 and in these two years they have got a strong hold in forex trading business. The secret ingredient behind their success is the fact that they really mean their slogan, which is â€œYour Goal, Our Gain.â€• Their trading platform is one the best from the point of investment. Also, they remain transparent and dedicated to the clients which have helped them build their reputation in a short span of two years.

The Prominent Features

YouTradeFX provides assistance to their clients in all of the major languages. They have the provisions of live chats and video tutorials to reach out their clients. The clients can have their doubts cleared by the professional team at any time of the day.

This website has advisors who are always there to help you out about any issues like deposits, investments and withdrawals.

The best part of this website is their demo practice, where you can trade forex without using real money. It is not only me who was benefitted from this program, most of the YouTradeFX reviews will give you an idea how much efficient you become in the field of forex trade when you have done this demo practice for one month. In this practice session, \$50,000 demo funds are given to you in order to increase your expertise.

To top it all, they have started their mobile service, which is very much user friendly. It gives me a chance to look after my trade on the go.

The Affiliate Program

YouTradeFX has now started their affiliate program. Judging the reputation they have as brokers and going through a few YouTradeFX reviews, I tried their affiliate program and to tell you the truth, it stood up to their reputation. The affiliate program is free to join and quite easy. They have this amazing tracking system which helps you to keep a track of your account and you donâ€™t have to worry at all about money you are making. At first, I tried their demo account and it helped me a lot. Though I was concerned a little bit at first, but it was all gone after remaining associated with them for past 4 months. The YouTradeFX reviews were all telling me that the commission structure can be chosen according to my own convenience and it was all true. Their commission plans spread over the wide range starting from pips spread and CPA to revenue share program and hybrids. I chose CPA plan and it worked out for me.

Once you are affiliated with YouTradeFX, you can cut off your worries that you often have with other programs, like whether I will get my commission. If yes, will it be monthly? With this affiliate programâ€™s easy tools and transparent procedure, I always got my commissions timely for the last 4 months. Undoubtedly, this program suited me the best!
