Express Your Love with Custom Engagement Rings by Methew Pitt

Article published on April 26th 2012 | Jewelry

Custom engagement rings designed by Studio 1098's Tamara Kronis and Kathryn Dieroff are as unique as you are â€“ and the perfect choice for expressing your love.

As Toronto jewelers, Tamara and Kathryn have helped numerous couples design diamond engagement rings and custom rings that reflect their love for each other as well as their individual personalities. These engagement rings serve as a beautiful reminder to cherish one another.

While traditional engagement rings are also special, custom engagement rings elevate the ring to a more intimate level. These talented Toronto jewelers work closely with couples to design a custom engagement ring that is true to the couple. Long before any sketches are made, the jewelers ask questions and observe how the couple dresses and interacts with one another. These are but a few of the many cues that inspire custom engagement ring design.

In addition to the jeweler's expertise, couples are encouraged to share their ideas, provide feedback, and revise the design as needed. This is a creative process, requiring some back and forth between the designer and the couple. End result? A fabulous custom engagement ring that truly expresses who you are and how you feel about your soul mate.

Tamara and Kathryn also design matching wedding rings, custom diamond rings for any occasion, and custom jewelry. Your custom engagement ring could be the beginning of an entire series of future heirlooms. Imagine incorporating the same design elements in jewelry to commemorate an anniversary, the birth of a child, or an outstanding accomplishment.

As monumental as this may sound, ordering custom rings isn't overly difficult. Tamara and Kathryn are easy going and accessible. You'll love how they translate your ideas into stunning designs. Allow your imagination to run wild and don't hold back! Since you'll be ordering custom rings, you aren't limited to traditional choices such as diamonds and white gold. If you'd prefer a different gemstone, talk to Tamara about gems. As a gemmologist, Tamara can point you in the right direction. She can help you choose a precious stone in a certain colour or with a specific meaning attached to it. If you're concerned about where the gems for your rings will come from, you can count on these Toronto jewelers to source responsibly mined gemstones and diamonds.

Your love is rare and unique â€“ shouldn't your engagement ring reflect that? Learn more about Studio 1098's custom diamond engagement rings, Toronto jewelry studio, and design services by visiting or liking Studio 1098 on Facebook.

Methew Pitt - About Author:
You can even order it online by getting it ordered and you can even compare its price with other stones of the same type and get to know about its designs and price whether its actual or not. But always try to buy the ring from authentic jeweler. The gemstone has its own type of durability and it is very durable and the color is also available in different formats. You can also get other types of suitable choices in sapphire, ruby and other types. So enjoy your engagement with your loved one
