We all know the importance of education in our life; it is like a power to achieve our wishes and dreams. Education keeps very important strata in development of any country specially our country which is presently in developing phase. There are steps in every country which takes it to zenith, like if the people in country are properly educated then only they will be literate to understand their as well as their society goods and bad, then they will be employed and all by all these good it will result in countries good.

India is a developing country where education keeps a key importance. The government is taking many measures to help up education in the Indian society. In resent budget of 2012 the government has brought 25% reservation for below poverty line children to study in unaided institutions. Government has taken out 22% money for the sarvasikshaabhiyan and 27% money for the Rajiv Gandhi sikshaabhiyanyojna. In short we come to know that governments are taking measure to bring more education in India by taking such measures. Education is necessary for everyone, especially the children because they are the future of our country. Education is something which has no barriers in the sense that education doesnâ€™t have boundaries of age, sex, caste, or creed it is equal for everyone and it benefits all equally.

If you want to eradicate social evils from the society, if you want to reduce unemployment and poverty, if you want to reduce the people coming under below poverty line, if you will to increase literacy rate in India that means that you need to increase education in your country. The social awareness for education is very important so that the uneducated people know their loss and let their children study not work. It is even necessary that both the gender is send for education as I said previously that education is not gender biased it is for boys as well as for girls. There are no limits for education; people can study as much as they wish and as long as they wish. The key word is education is important rest no clause in it.

Traditionally we use to see that there used to be gurukuls where parents use to send their children where the children use to stay and study for certain age and then they were sending back home to do their respective work. Lot of phases went in education level in our country and then we came across this modern system of schooling where the children go for education. There are numbers of good schools especially in gigantic cities like the metropolis such as Delhi. There are world schools in Noida. There are CBSE board schools in Noida as well as ICSE board schools in Noida which are busy taking steps towards educating children and helping in Indiaâ€™s future, good future.
